

Mechanic's Work Gloves

To figure out your estimated glove size, measure your hand as shown below.

1. Measure around the hand at the widest part.
2. Measure from the tip of the middle finger to the base of the hand as shown.
3. Use the **LARGEST** of these two measurements for the correct size glove.
4. If you are **RIGHT** handed, take measurements from your right hand.
5. If you are **LEFT** handed, take measurements from your left hand.
6. Refer to chart for correct glove size, based on your measurements.

Sizes

M	L	XL	XXL
7.5"–8.5"	8.5"–9.5"	9.5"–10.5"	10.5"–11.5"

NOTE: All sizing charts only serve as a guide. The sizes and measurements are only for reference.
